

INSPIRED BY YOUR PASSION.

OUR GRINDERS

**WHEN SUCCESS IS
EXCLUSIVE**

INSPIRED BY YOUR PASSION.

FROM 1905, BELIEVING IN INNOVATION.

Our primary goal: light your passion to achieve greatness.

From 1905 Victoria Arduino has been chosen by those who love great coffee made with a superb coffee machine, unique in its design, with high quality standards and performance.

Even today, the mission of Pier Teresio Arduino is accomplished; an ingenious technology made in Italy while maintaining the family tradition. The Victoria Arduino coffee machines were created from the inspiration of those who desire a memorable moment while sipping their cup of coffee.

Excellence means offering an unforgettable moment.

PERFECT GRINDING

“IN SHORT”: A GREAT COFFEE

THE GRINDING METHOD IS THE START OF A PERFECT ESPRESSO

The range of Victoria Arduino grinders is created for professionals demanding excellent products.

So advanced, they always guarantee an optimum grinding. The fragrance and aroma remain untouched with any coffee variety. It is an intelligent on demand system that guarantees a flawless result.

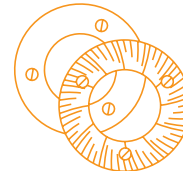

Gravimetric system for a precise dose and a consistent result.

Clima Pro 2.0 technology guarantees a better grinding temperature consistency.

Burrs variable speed grants the decreasing of the grinding times per dose.

Grinder burrs made by special steel to avoid burrs overheating and to leave no residue.

Easy to clean without wasting coffee. Fast resetting.

MYTHOS FAMILY

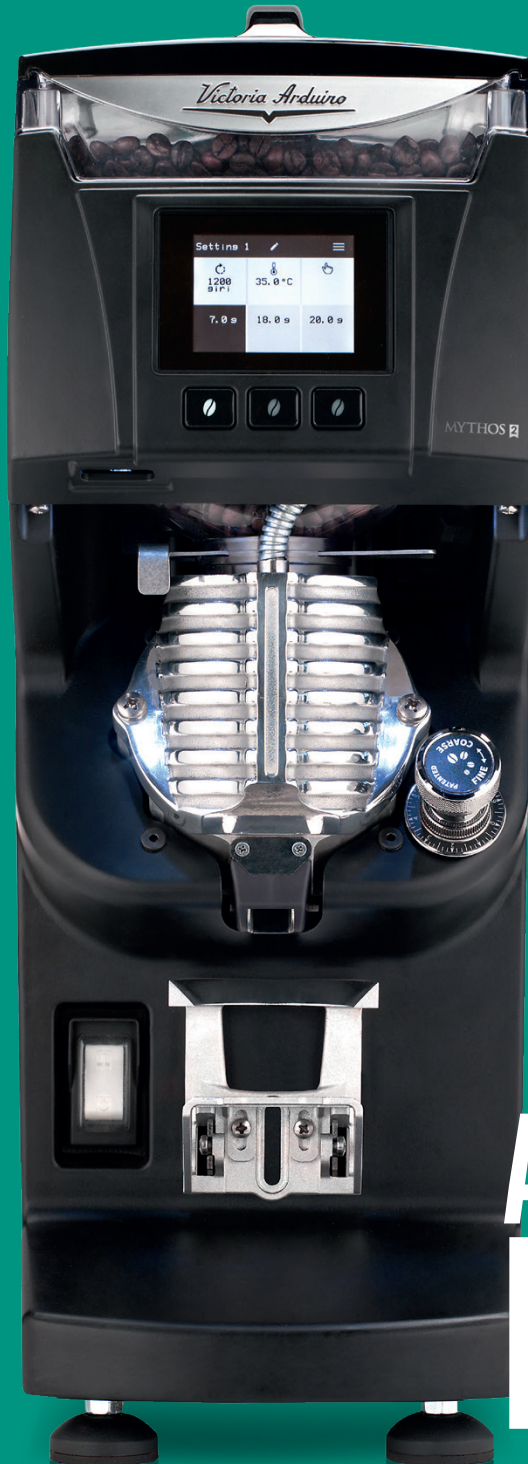

MYTHOS TWO

From the Mythos One experience, Mythos 2 is created. It is the new generation grinder that guarantees and combines maximum consistency with high productivity. Thanks to new technologies Gravitech and Clima Pro 2.0, Mythos 2 is the most advanced grinder on the market.

VICTORIA ARDUINO - MYTHOS FAMILY

THE NEW MYTH

AT THE
BAR

010

011

GRAVIMETRIC SYSTEM

The dose is directly adjustable from the touch screen display. The barista can choose between three different pre-sets thus allowing all operations to be more simple and efficient.

CLIMA PRO 2.0

The new system Clima Pro 2.0 guarantees a fixed temperature (chosen between 30 and 50 °C), during the whole grinding phase. This allows for quality assurance.

VARIABLE SPEED

The variable speed of the Mythos 2 guarantees excellent grinding conditions using different varieties of coffee while maintaining their unique aroma. Our energy saving patent allows for constant speed and controls the temperature of the grinder.

HIGHER PRODUCTIVITY

With Mythos 2, Victoria Arduino developed a grinding chamber with Nanotech burrs of 85 mm for a faster production. The special propeller found on top of the burrs, holds a constant pressure of the coffee preserving its wholeness.

GRAND AND CUSTOM-MADE

Mythos 2, with its versatile design and aluminum covering is impressive. While the dispensing zone remains very technical, the programming display (touch screen with 3 dispensing buttons) is modern and innovative. Mythos 2 is also custom-made; completely unique to fit each unique personality. A classy touch in your the coffee shop.

SILENTIOUS

This feature makes the grinder more silent and noises are eliminated. Mythos 2 allows a more comfortable and quiet environment for the clients.

MYTHOS ONE

The new generation grinders on demand; tradition meets innovation. A combination of fine details and materials with advanced technology and intelligent elements. The features Clima Pro and Clump Crusher of the Mythos One, allows for the grinder to keep a constant outflow of ground coffee for a better extraction quality. The Mythos One, with its impressive characteristics and new features allows the baristas to make great espresso for the demanding client.

VICTORIA ARDUINO - MYTHOS FAMILY

THE STRONGPIECE

OF THE
RANGE

015

VICTORIA ARDUINO - MYTHOS FAMILY

CLIMA PRO TECHNOLOGY

Guarantees a stable temperature during the grinding phase for an intense and consistent texture.

CLUMP CRUSHER SYSTEM

This system eliminates the electrical static effect of the ground coffee, maintaining the continuous flow of coffee and reducing residue.

FILTER HOLDER HOOK

One of the most functional and ergonomic revisions made on the Mythos One. The operations of the barista are facilitated with less wrist strain.

ERGONOMIC SHAPE

The new ergonomic shape of the grinder is much user friendly and allows a complete control of the machine. The LED lights guarantee full illumination even when darker.

LIFE-LASTING BURRS

Nanotech burrs for an even more efficient and durable grinding operation (up to 1200 kg of coffee).

SILENTIOUS

The new technical features allow the machine to work silently guaranteeing a quiet ambiance in the coffee shop.

MD FAMILY

MDJ ON DEMAND

MDJ on demand is the high-quality professional grinder. It is the ideal machine for a highly productive establishment that can grind up to 3 kg per day.

VICTORIA ARDUINO - MD FAMILY

AN EVEN MORE

SILENT
GRINDER
HIGH PRODUCTIVITY

Victoria Arduino

VICTORIA ARDUINO - MD FAMILY

SILENCE

The new system with revised suspensions, isolates the engine to eliminate unwanted noises.

SOLID AND PRECISE

Made up of inox steel, the MDJ on demand is a sturdy and durable machine.

MICROMETRIC REGULATION

This function regulates the grain size with extreme precision using flat burrs of 75 mm.

PORTAFILTER HOOK

The new portafilter hook facilitates the work of the barista.

MDXS **ON DEMAND**

Even more advanced, the MDXS on demand has a grinding capacity of 1,5 kg per day. Keeping the same features of the previous grinders, it stands out for its quietness.

Victoria Arduino

024

SILENCE

Silent technology is present only in the top range grinders. It allows a pleasant ambience for the both barista and customers.

INSTANT GRINDING

Designed to ease the outflow of ground coffee from the grinding chamber. The funnel system diminishes residue and guarantees a constant and durable quality.

PRECISE GRINDING

Thanks to the new ventilation system, along with the 65 mm burrs, the machine guarantees a high-quality grinding experience. The constant temperature allows the coffee to keep its exclusive fragrance.

PORTAFILTER HOOK

Designed with aluminum and ergonomic parts, the portafilter hook of the MDXS offers a secure and stable closure.

MDH

Compact, agile and efficient. This is MDH, the new compact grinder. It grinds up to 0.5 kg per day and can be of great use at home or at the office.

VICTORIA ARDUINO - MD FAMILY

SMALL OUTSIDE

BIG
INSIDE

SILENT TECHNOLOGY

Eliminating the vibrations, you can enjoy a great cup of coffee in a noiseless ambiance.

MAXIMUM PRECISION

The micrometric regulation system makes the MDH more ductile with greater precision.

PERFORMANCE AND POWER

With its 900-watt engine, the MDH assures a uniform and powerful grinding. The 50 mm flat burrs in steel alloy increase performance guaranteeing a constant ratio.

MICROMETRIC REGULATION

This function adjusts the coffee grain size with maximum precision.
